A letter sent from Wiregrass, Ga., to Savannah ran the gauntlet of two United States Postmasters with a ten-cent Confederate postage stamp upon it.

The Senate Thursday passed the Fitz John Porter bill. It appears that when Senator Logan fired his word ordinance in the Senate a few days ago he forgot to load it.

Three members of the Guitau jury have recently died, and one who was wealthy lost all of his property and is now a hotel porter. Did Guitau's curses bring the bad luck?

The star route trials have cost the government half a million of dollars, and the end of it has not yet been reached. It seems to be very difficult to reach the end of justice in Washington, because it is so far off.

A man named Patterson, who stole a few cents' worth of crackers and cheese at Montmorency, Ind., was sentenced to six years in the penitentiary. He ought to have robbed a bank and made himself a high dignitary and church elder.

Wiggins, a Canadian astronomer, has billed a great North American storm for the 6th of March. It behooves everybody to dig a hole or hunt a cave, for the great United States that came last week filled the bill exactly as ordered by the U. S. Signal Corps.

Congress has no time to lose if a new tariff is to be adopted at this session; and the voice of the country is loud in demanding final action at the earliest possible moment. It would be a blunder of large dimensions to let the matter go over until December next.

The atmosphere of Minnesota is heavy with the smoke of the Senatorial battle.

At Panola, Texas, three sheriffs had a quarrel. One was killed and the other two fatally wounded. What an evidence of a high form of civilization!

Samuel J. Tilden has been elected President again—President of the Cleveland and Pittsburgh Railroad this time. It is thought that Hays will try to count him out.

Atlanta Constitution: Red Cloud wants pay for horses taken from him by Gen. Crook several years ago. As an offset to this, the Government should fetch in a bill of damages against Red Cloud for running Gen. Howard about on the plains.

In the matter of the Polk defaultation the committee have discovered that checks on banks were irregular, and proposes to hold the banks responsible to the amount of nearly \$300,000. The ground of the irregularity is that the checks were not issued on a payable warrant to the Comptroller, as the law directs, and that the checks were not countersigned by the Comptroller.

If all the newspapers in Kentucky would come out boldly and make a stand for law, order and the rights of the citizens, and not permit a lot of hireling lawyers manufacture evidence to release highwaymen, murderers and assassins, we would soon have a different state of society and the State would no longer be quoted by strangers as the "Dark and bloody ground." Certainly there are good, honest and law-abiding citizens enough in the State to support and stand by the papers in doing their duty. Then why not do it?

The sea is the largest of all cemeteries, and its slumbers sleep without a monument. It is a cemetery which knows no distinction. All other graveyards, in all other lands, show some symbol of distinction between the great and small—the rich and poor; but in that ocean cemetery the king and clown, the prince and the peasant, are alike undistinguished. The same wave rolls over all, the same requiem by the minstrelsy of the ocean is sung to their honor. Over their remains the same storm beats and the sun shines; and there unmarked, the weak and the powerful, the plumed and the unadorned, will sleep until awaked by the same trump, when the sea will give up its dead.

The Washington Republican says: "Mr Blackburn is too frank and honest to be a Democratic Speaker."

Judge Brown has instructed the Boyd county grand jury to indict every person they can who was concerned in the mob that attacked the State guards. He characterizes their action as treason against the State.

Courage and honesty are the qualities now in most demand in editors and in public servants. The same qualities among the voters would improve the situation.—[Louisville Democrat.]

The London Times comments on the Milwaukee fire: "It is a reproach and a shame to modern intelligence that nearly a hundred lives were lost in sight of a crowd eager to aid, from a want of effective mechanical appliances."

There is not one man out of fifty that knows the legal construction of self-defense. It is about this: A man following the peaceful avocation of life, and is assaulted and is in direct danger of losing his life or being inflicted great bodily harm, has a right to kill in defense at that particular time, and no other. In case of indirect threats having been made on his life, he has no right to hunt and kill his enemy on sight as generally believed by the public. This law ought to be published semi-annually by every paper in the state, and to be incorporated in every school-book in the land.

of the universal success of Brown's Iron Bitters is simply this: It is the best Iron preparation ever made; it is compounded on thoroughly scientific, chemical and medicinal principles, and does just what is claimed for it—no more and no less.

### COL. L. T. FOSTER.

YOUNGSTOWN, OHIO, MAY 10TH, 1880.  
B. J. KENDALL & Co., Gentl.—I had a very valuable Hamiltonian colt which I prized very highly; he had a large bone spavin on one joint and a small one on the other, which made him very lame; I had him under the charge of two veterinary surgeons who failed to cure him. I was one day reading the advertisement of Kendall's Spavin Cure in the Chicago Express, I determined at once to try it, and got our druggist here to send for it; they ordered three bottles. I took them all and thought I would give it a thorough trial, and used according to directions and the fourth day the colt commenced to be lame, and the lumps had disappeared. I used but one bottle and the colt limps as free from lumps and as smooth as any horse in the state. He is entirely cured. The cure was so remarkable that I let two of my neighbors have the remaining two bottles who are now using it. Very Respectfully,  
L. T. FOSTER.

### Kendall's Spavin Cure.

ON HUMAN FLESH.  
Patten's Mills, N. Y., Feb. 21st, 1878.  
B. J. KENDALL & Co., Gentl.—The particular case on which I used your Kendall's Spavin Cure was a malignant ankle sprain of sixteen months standing. I had tried many things but in vain. Your spavin cure put the foot to the ground again, and for the first time since hurt in a natural position. For a family liniment it exceeds anything we ever used.

Yours truly,  
Rev. M. P. Bell,  
Pastor of M. E. Church, Patten's Mills, N. Y.
